# EXTERNAL FITTINGS AND SHADING SOLUTIONS

The importance of usable and comfortable outdoors spaces has increased greatly.

External Shading solutions provide privacy, shading and temperature control along with enhancing the external look of the building. External shading systems are popular in new build hotels, bars and event venues.

## SOURCING

## SURVEY & DESIGN

## INSTALL

KaydeeSayfa have over 35 years experience in the sourcing and installation of external fittings for commercial projects.

With KaydeeSayfa you get access to a proven supply chain of local and global manufacturers - With a wide range of external shading systems to match the building specification.

35+ YEARS EXPERIENCE IN COMMERCIAL PROJECTS

"We set ourselves and KaydeeSayfa an extremely tough challenge and everyone delivered on this huge undertaking."

Director of Retail Sales, News UK

## EXTERNAL SHADING SOLUTIONS

### AWNINGS

### EXTERNAL BLINDS

### PARASOLS

## AWNINGS

Durable cassette awnings provide a compact, on demand shading solution. Ideal for outdoor seating areas, bars, restaurants and cafés.

Awnings are available in manual or electric operation.

## EXTERNAL BLINDS

External Blinds provide all the privacy and thermal / light control without taking the interior space. External Blinds can provide both blackout or dim-out functions.

Available in manual or electric operation.

## PARASOLS

Large commercial parasols provide on the spot shading solutions for external spaces. Mobility and all round coverage make them a flexible shading solution.

Available in round, square, rectangular or cantilever, with manual operation.

## WHY KAYDEESAYFA?

With KaydeeSayfa you get the advantage of dealing with one company, one contract for multiple specialist construction packages. Get in touch with a member of our team to find out more.

We have worked together with UK's leading contractors since 1985 - Our experience in project management and installation will ensure your project is completed on time and on budget.
