

FREE STANDING RAISED WALKWAY

The raised walkway is a permanent free-standing solution designed to create a designated safe access pathway over roof works and walls.

The raised walkway is on rubber base feet to ensure no roof or wall penetration is needed. The walkway is a modular system which allows easier installation on site and can be adjusted to accommodate the roof layout.

TECHNICAL INFORMATION

SYSTEM TYPE	WALKWAY
FUNCTION	HEIGHT SAFETY
MAXIMUM WIDTH	800 MM
MAXIMUM HEIGHT	500 MM
MAXIMUM LOAD CAPACITY	150KG/M ²
MAXIMUM INCLINE	45°
