Utilising our +35 years of industry experience, our team are able to provide on time & on budget project delivery. Our expansive supply chain network enables our team to meet your project's unique specification and design needs without compromise on a large scale.

Roof Safety lines, are one of the most frequently used forms of fall restraint system. The system consists of static posts which are set out at specific intervals and then linked by a safety line. Operatives then attach on to the safety line in order to safely access the roof space for general access, or to carry out cleaning & maintenance.

- FALL RESTRAINT & ARREST OPTIONS
- MINIMAL VISUAL IMPACT
